---

Ausco Products is a Western Australian owned company that has been in operation for over 70 years specialising in engineering design and machining services.

Ausco is committed to providing a fast turn around and high quality machining service to a variety of business including many key players in the oil, gas and mineral resources sector. Companies such as Sandvik, CBC Bearings, Boart Longyear, Pentair, WesTrac CAT, Caterpillar and Silver Yachts choose Ausco for both small quantity runs of specialist parts, as well as larger quantity runs of regular items in both ferrous and non-ferrous metal grades.

Ausco also produces our own range of accessories for the marine industry such as deck plates, bollards and cleats, which are finished to a high standard. These products are promoted, mainly at the wholesale level, to a network of marine part suppliers throughout Australia and New Zealand.

Ausco's machinery and equipment has been carefully selected for both capability and reliability.

Okuma equipment is used extensively with the most recent addition the MA-660HB Space Centre 4 Axis machining centre.

### CNC Machinery

- Okuma LB300M Lathe 300 DIA x 1000 mm length with bar feed to 68mm
- Okuma LB15 CADET Lathe 340 mm DIA x 990 mm length
- Okuma LB 300 Lathe 340 mm DIA x 500 mm length
- Okuma MV55 Machining Centre 1000 x 550 x 450 mm
- Okuma MV55 Machining Centre 1000 x 550 x 450 mm
- Okuma MA-600HB Machining Centre

## Manual Machinery

- |                            |                             |
|----------------------------|-----------------------------|
| • Lathe                    | 3 metre                     |
| • Lathe                    | 2 metre                     |
| • Radial Arm Drill         | 1500 mm arm                 |
| • Pratt & Whittley Slotter | 165 mm stroke               |
| • Microcut Mill            | 3 axis digital readout      |
| • Automatic Amada Bandsaw  | 250 dia. with shuttle vices |
| • Coldsaw                  | 300 mm DIA                  |
| • Vertical Bandsaw         | 400 mm x 1 meter throat     |
| • Spark Eroder             |                             |
| • 2.5 tonne forklift       |                             |
