

Ausco Products Boat Washing System

Ausco Products has designed and manufactured a boat washing system that significantly decrease the amount of pack up time for clubs and schools. The system is designed such that the boat passes through the middle of the spray jets as it is walked inside the shed. There are four main jets that run off mains pressure to wash the top, bottom and inside the hull as it passes through.

Features:

- Capable of washing any hull
- Decrease packing up time
- Superior cleaning of equipment
- Longer equipment life
- Runs off water mains pressure
- Optional Flat pack, easy to assemble
- Optional swivel heads for adjusting of sprays
- Narrow footprint making it easy to store

Dimensions:

2700 x 300 x 1750 mm
